Recreation Supervisor

Supplemental Questions

Please answer two (2) of the following questions. Each response should be no more than one page in length. Completed questions along with completed application must be returned to MCSD by Wednesday, March 14, 2018, 5:00pm.

1) You have been tasked with modifying the pool schedule to better meet the needs of the local swimming community. Evening hours are in high demand with 3 large user groups requesting the same weeknight timeslot: the local swim team, the local lap swim community, and a popular water aerobics program. Due to space limitations shared space is not an option; you need to decide which group gets the desired timeslot. Please describe how you would approach this decision. What steps would you take and what considerations would you factor in?

2) You are 3 weeks into the 10-week summer pool season and weekend pool attendance is much lower than expected, in spite of consistent warm weather. If this trend continues you will end the season well below revenue projections. Please describe how you would approach this problem and two courses of action you would take to rectify it.

3) On a random summer afternoon a camp of 50 kids from out of town arrives unannounced at the pool. While this group does not cause the facility to exceed capacity, the kids are extremely poor swimmers, requiring repeated rescues and almost constant lifeguard intervention. After an hour your staff members are visibly exhausted and you are concerned for their safety, as well as the safety of the pool users. Your regular pool patrons are also visibly irritated by the commotion. How would you approach this situation? What steps would you take to ensure the continued safety and enjoyment of your pool users and staff?
